Funded Pharmacy Undergraduate Placement Programme (FPUPP)

The education and training of undergraduate student pharmacists has changed. Could you help to secure a new generation of competent, confident pharmacists?

FPUPP training sites must provide:

- ✧ A Placement Supervisor: a registered health care professional who holds relevant clinical skills and knowledge of the training requirements for pharmacists
- ✧ Opportunities for students to engage in interprofessional experiential learning and clinical activities
- ✧ A supportive learning environment, where students will be treated with dignity and respect
- ✧ Placements consisting of a 5-day block (37.5 hours, Monday to Friday)
- ✧ Feedback and evaluation of the programme
- ✧ A commitment to HEIW's quality management framework

If you are keen to be involved in the programme but feel that you do not meet the criteria of an FPUPP training site exactly, please contact us on the email below.

What can you expect in return?

- ✧ Funding of £600 per student, per 5-day placement block
- ✧ Placement Supervisor training and resources
- ✧ Opportunities for continuous professional development
- ✧ A chance to showcase the exciting career opportunities available for pharmacists in Wales
- ✧ Satisfaction from helping to develop the skills of our future pharmacist workforce

For further details, please see the attached FAQs, or contact the FPUPP team:
